Rope Access is physically demanding and strenuous; therefore a good level of health and fitness is required to complete the training.

It is our recommendation that you have a medical checkup from your GP prior to your course commencement and the certificate to be presented on the first day.

However you can choose a medical self assessment which will be made available on the first day of the course.

What you need:

One passport size digital photograph with your name clearly indicated sent my email to the AID office: beth@aidropeaccess.com.

If you require a copy of training notes prior to the course please inform us and a copy will be sent out electronically on receipt of your deposit.

Our venue is outdoors and provides the most realistic conditions. We work in most weather conditions up to a maximum of 25 mph wind speed.

So please bring with you adequate protective clothing such as gloves, wind proofs, fleece underclothing and waterproof outer layers. Jeans are not recommended.

It is our policy for protective footwear to be worn whilst outside on the training tower. We provide helmets and all rope access equipment.
